RE: Region-20 821 MHz Window 3 HP
Inter-Regional Coordination –
Response to Objections

Dear Mr. Appleby,

The Region-20 821 MHz Public Safety RPRC (Region-20 RPRC) met on April 11, 2000 to finalize our response to the Region-36 Planning Committee's (Region-36 PC) objections to our Window 3 High Power (HP) Applications.

** Adopted by the Federal Communications Commission on March 26, 1990*

REGION-20 821 MHZ PUBLIC SAFETY REGIONAL PLAN REVIEW COMMITTEE

The enclosed information consists of two parts, part one being Region-20's Technical Subcommittee's evaluation and response, and part two being the supplemental responses of the Region-20 Window 3 HP applicants to the Region-36 PC's objections.

The Region-36 PC has thirty days, from the delivery date of this letter, to respond to this Inter-Regional Coordination response to objections. If the Region-20 821 MHz RPRC Chairman does not receive a response within the agreed upon 30 days, then it shall be assumed that the Region-36 PC has given *unconditional concurrence* to this Inter-Regional request and the Window 3 HP Channel Assignments. Should the Region-36 PC reach an *unconditional concurrence* determination prior to this 30 day reply response period, the Region-20 821 MHz RPRC would greatly appreciate receiving such an affirmative response at your earliest convenience.

Respectfully,
