

consultation with NECA, determines that the average schedule company basis is appropriate.

In addition, ASG and ASTA request a waiver of the provisions of Section 69.3 that require advance notification in order to participate, effective July 1, 1998, in NECA's common line, traffic sensitive, and end user tariffs and pools. 23/

E. Waiver of the "Study Area" Definition

ASG and ASTA also request a waiver of the "study area" definition for purposes of Parts 36, 54, and 69 of the Commission's Rules. Part 36 Appendix-Glossary indicates that "study area boundaries shall be frozen as they are on November 15, 1984." 24/ American Samoa has never been classified as a "study area" in the past. In light of the need to have a designated "study area" in order to calculate historical cost, a waiver of the definition is necessary to ensure that ASTA may receive universal service for high cost loop support.

F. Clarification That American Samoa's Participation In the North American Numbering Plan Is Not Relevant to ASTA's Ability to Join NECA or To Receive High Cost Support

The issue of whether American Samoa will enter the NANP is the subject of another proceeding currently pending before the Commission, and we do not seek any ruling in this proceeding that would affect that decision. We merely

23/ 47 C.F.R. 69.3.

24/ 47 C.F.R. Part 36 Appendix-Glossary.

seek clarification that the outcome of that proceeding is not relevant to ASTA's ability to receive universal service support or to participate in NECA.

V. CONCLUSION

For the foregoing reasons, ASG and ASTA respectfully request that the Commission grant all waivers and declaratory rulings necessary, including any waiver or declaratory ruling but not specifically requested herein, in order to allow ASTA to participate in all of the universal service high cost support mechanisms as of January 1, 1998. Grants of these declaratory rulings and waivers will allow ASTA to receive universal service high cost support, and will ensure that the people of American Samoa have access to low cost telecommunications services as envisioned by Congress in enacting the 1996 Act.

APPLICATION

Applicant American Samoa Telecommunications Authority

Interexchange Carrier Division ("ASTCA IXC" or "Applicant") hereby requests authority, pursuant to Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and Sections 63.18(e)(1) and 63.18(e)(2) of the Commission's Rules, 47 C.F.R. §§ 63.18(e)(1), (e)(2), to operate as a facilities-based and resale carrier of international services to all eligible international points. ASTCA IXC is a new applicant for authority to provide international services and has no foreign carrier affiliations. ASTCA IXC's primary business is the provision of telecommunications services.

I. BACKGROUND

Until 1998, the local and long distance telephone network in American Samoa 1/ was operated by the American Samoa Government ("ASG") through the American Samoa Office of Communications ("ASOC"). The ASG inherited this network from the U.S. Navy and the U.S. Department of the Interior, which formerly administered the territory. On January 9, 1998, the Governor of American Samoa issued an executive order transferring the telecommunications operations formerly run by ASOC to the newly-created American Samoa Telecommunications Authority ("ASTCA"), a semi-autonomous agency of the ASG with an independent board of directors. 2/ Subsequently, ASTCA reorganized its operations to establish separate local exchange carrier and interexchange carrier divisions.

ASTCA IXC provides outbound interstate and international service, and provides part of the interexchange communications link for inbound interstate and international calls. While ASTCA IXC provides a large proportion of the international traffic into and out of American Samoa, it is not the only IXC in the

1/ American Samoa, an unincorporated territory of the United States, is located 14 degrees south of the equator, about 2,300 miles southwest of Hawaii, and more than 4,100 miles southwest of San Francisco. The territory lies approximately 1,600 miles northeast of New Zealand, and approximately 40 miles east of the independent country of Samoa (formerly known as Western Samoa), with which American Samoa has close cultural, economic, and family ties. Persons born in American Samoa are nationals but not citizens of the United States. As of July 1, 1996, the population of American Samoa was 58,000.

2/ Copies of the Executive Orders establishing ASTCA are attached to this application.

territory authorized to provide international service. ^{3/} ASTCA IXC files this application to regularize its operations under the Commission's authority.

Applicant also requests that the Commission streamline the processing of this application pursuant to Section 63.12. Grant of this application will serve the public interest, convenience and necessity by promoting competition in the international services market.
