Re: *Ex Parte – ET Docket No. 98-153*  
*Ultra-Wideband*

Dear Ms. Salas:

On Thursday, 27 April 2000, Ralph Petroff and Jeff Ross of Time Domain Systems, Inc., and undersigned counsel, discussed the above-noted matter with Don Abelson, Damon Ladson and John Guisti of the International Bureau. In that conversation, Time Domain urged that the Notice of Proposed Rulemaking on Ultra-Wideband technology—now under consideration by the Commission—not be delayed by the upcoming WRC. Time Domain pointed out that issuance of an NPRM on this technology had been long-delayed, and that its issuance would have no adverse impact on the upcoming WRC.

Sincerely yours,

Scott Blake Harris
