Re: In the Matter of Applications for Transfer of Control to AT&T Corp.
("AT&T") of Licenses and Authorizations Held by MediaOne Group, Inc.
("MediaOne") CS Docket No. 99-251

Dear Ms. Truong:

This letter responds to the request by the Bureau staff for updated information regarding AT&T's deployment of local telephone services nationwide. AT&T currently provides residential local telephone service to approximately 555,000 customers/lines nationwide using network element combinations obtained from incumbent LECs ("UNE-P"), resold local service, cable telephony, fixed wireless, and services provided over AT&T facilities to multi-dwelling units ("MDUs").

AT&T provided local telephone service via UNE-P to 359,300 billed lines as of May 1, 2000. It also provided resold local service to approximately 125,000 lines as of December 31, 1999. As publicly reported, AT&T provided local telephone service to 60,000 customers nationwide via cable telephony as of May 19, 2000. More detailed information is being provided separately to the Commission under confidential seal pursuant to the protective order. Please call me if you have any questions regarding this letter.

Sincerely,
Stephen C. Garavito
Sincere
