RECEIVED  
MAY 30 2000  
FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

Re: *Application of SBC Communications Inc. Pursuant to Section 271 of the Telecommunications Act of 1996 to Provide In-Region, InterLATA Services in Texas, CC Docket No. 00-65 /*

Dear Ms. Salas:

Enclosed for filing under seal please find the following materials:

(1) Tables disaggregating EDI rejects by error type. This information is being provided on both a CLEC-aggregated and CLEC-specific basis for the months February, March, and April 2000. Results for January 2000 were filed with the Commission on April 5, 2000, as Attachment H to the Supplemental Affidavit of Elizabeth Ham. As explained in paragraph 28 of the Supplemental Ham Affidavit, these error reports count each error that was identified on an LSR. Because there may be more than one error per LSR, the indicated overall error rates are greater than the percentage of rejected LSRs experienced by the relevant CLECs.

(2) A manual breakdown of SWBT's "I-30" trouble report for April 2000, indicating reports received within 7 and 10 days of CHC and FDT conversions. The "I-7" and "I-10" data for December 1999 through March 2000 were provided as Attachment I to the Supplemental Reply Affidavit of Brian D. Noland and William R. Dysart, filed on May 19, 2000. Averaging the 5 months' results shows an average trouble report rate of just 1.86% within 7 days of the hot cut. This is better than the *Bell Atlantic New York Order's* 2% standard. See *Bell Atlantic New York Order* ¶¶ 300 & nn.956 & 957, 309.

No. of Copies rec'd 042

Page 2

These materials are being provided at the direct request of the Commission staff. An original and two copies of this cover letter are being submitted for inclusion in the public record. Please let me know if you have any questions about this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Austin C. Schlick". The signature is fluid and cursive, with a large initial "A" and "S".

Austin C. Schlick
