Re: Proceeding Number RM-9882
Document Type: Comment

Dear Ms Salas;

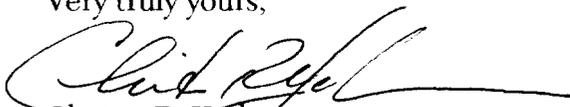

I wish to register my support for the Petition for Rule Change registered by Data Flow Systems, Inc., and described in Proceeding Number RM-9882.

The proposed rule change supports public wastewater, water and stormwater utilities in their efforts to provide economical, and reliable utility services to a rapidly growing area of the public. I believe that the proposed petition supports utilities in providing for the public's health, safety and welfare.

The Loxahatchee River District is a Special District of the State of Florida, with legislated responsibilities for the provision of water, wastewater and stormwater utility services to a 73 square mile area surrounding one of the nations only tropical Wild & Scenic rivers. The District uses radio telemetry to monitor over 160 wastewater, and 20 water supply facilities for a population of approximately 60,000.

I am respectfully requesting that this petition for rule change be granted.

Very truly yours,

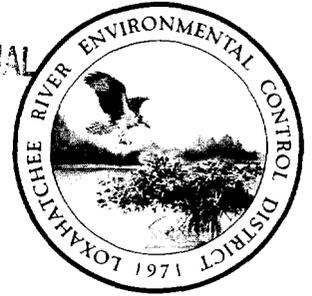

Clinton R. Yerkes
Deputy Director
Loxhatchee River Environmental Control District
