## END USER AND INTER-CARRIER COMPENSATION PAYMENTS FOR LOCAL BUSINESS TRAFFIC \*

\* This diagram only reflects traffic originated by an ILEC End User and terminated to a CLEC End User.

\*\* The FCC's access charge rules applicable to Price Cap LECs are not applicable to competitive LECs and pricing for End User local business lines may not include an EUCL.

\*\*\* To the extent this surcharge is applied, it may be paid to carriers other than the CLEC furnishing the traffic to the End User.
