Re: DOCKET No. 99-339

To Whom It May Concern:

This letter is being sent in opposition to petitioners for reconsideration of the reported order on video description.

I am a member of the blind community, and as a blind person, I want you to know the descriptive video service helps me to feel less isolated from the "real world." I can enjoy a good laugh or cry; I can be scared with a suspenseful movie or react with sweet emotion to a touching moment on screen if I know what is happening.

Please do not reconsider the order which requires television networks to use video descriptions for key television programming.

Sincerely,

AMBRG SALAS

This letter is being sent in opposition to petitioners for reconsideration of the reported order on video description.

I am a member of the blind community, and as a blind person, I want you to know the descriptive video service helps me to feel less isolated from the "real world." I can enjoy a good laugh or cry; I can be scared with a suspenseful movie or react with sweet emotion to a touching moment on screen if I know what is happening.

Please do not reconsider the order which requires television networks to use video descriptions for key television programming.

Sincerely,

*Raymond E. Juni*
