The amendment revises the channel allotments to reflect changes made to Appendices G and H (previously Tables IV and V, respectively), including benchmark dates. The amendment includes the following provisions:

- Re-index Tables VI, VII, VIII to Tables IV, V, and VI, respectively.
- Update information for Florida Committee members (Table I).
- Revise Section 4.5 to define simultaneous receipt of two or more applications.
- Revise Section 5.3.1 (B) for more emphasis on coverage equivalency.
- Add a new Section 5.4.6 to address Radio Frequency Control Stations.

On December 29, 2000, the Commission issued a Public Notice (DA 00-2918) inviting interested parties to file comments regarding a proposed amendment to the Region 9 Plan that was filed with the Commission on October 13, 2000. We have reviewed the Region 9 request and find that it furthers the Region's spectrum planning and management capability. Further, we have received no comments in response to the Public Notice of December 29, 2000. The amendment is, therefore, accepted and approved as submitted. The Secretary's office will place the amended Region 9 Plan in the official docket file where it will remain available to the public.
