**Re: Centennial Communications Corp.
CC Docket No. 94-102; First Quarterly Report on TTY-Digital Deployment**

Dear Ms. Salas:

On behalf of Centennial Communications Corp. ("Centennial"), I am submitting this quarterly progress report on implementation of TTY access to Centennial's digital wireless systems. Centennial holds cellular licenses in 31 markets in six states, as well as the B Block broadband PCS license in MTA 25 - Puerto Rico/US Virgin Islands. In Centennial's domestic markets, it utilizes Nortel Networks ("Nortel") infrastructure equipment; in the Caribbean market, Centennial uses Lucent Technologies ("Lucent") infrastructure equipment. As a result, Centennial depends on the implementation of TTY solutions by both Nortel and Lucent. Once the TTY solutions of these equipment manufacturers are commercially available, Centennial will implement them in its markets.

Centennial understands that both Nortel and Lucent will be filing TTY capability status reports through the TTY Forum, and it directs the Commission to those reports for specific information regarding development and deployment activities. Centennial will make every effort to implement TTY access in its markets by the June 30, 2002 deadline.

Please contact me if you require any additional information.

Sincerely,

Theresa Zeterberg Cavanaugh
