Subject: Internet Relay

To Whom It Concern...

Hi. I want to talk about internet relay. I think it is great for us to use. For my work, I don't have any special accomadation such as TTD. I have computer at work. I feel great to use internet relay everywhere! It is very realiable! I don't have to carry TTD all the time! I hope FCC will approve that soon as possible! Thank you!

Paul
