Re: Ex Parte Presentation  
IB Docket No. 99-81

Dear Ms. Salas:

David Otten, Chairman & CEO of Celsat America, Inc. ("Celsat"), and I met today with Adam Krinsky of Commissioner Tristani's office. At the meeting, we discussed Celsat's concern that recent Commission filings made by third parties could have the potential to delay the issuance of licenses to Celsat and other companies in the 2 GHz MSS proceeding. Celsat urged the Commission to preserve the integrity of its processes by issuing unconditional licenses to all 2 GHz MSS applicants within the next month. Celsat also reiterated that it has the ability to provide a robust service to consumers with a modest amount of spectrum and stands ready to initiate its valuable service promptly after obtaining a license from the Commission.

In accordance with section 1.1206(b) of the Commission's rules, two copies of this letter are being submitted for inclusion in the docket noted above. Please direct any questions concerning this matter to the undersigned.

Very truly yours,

Brian Weimer
