Dear Chairman Powell,

Why do we need the extra money for internet access? I think that the internet is one of the largest and most popular working tool of today's technology. The internet should be a part of school daily acts. And if that tool isn't there what are we left to work with..... Books, Magazines, or Newspapers that are limited to the last year or week. The choice is yours I'm just pushing you in the right direction.

7th grader dere. OH,
Rachel
Johnson

Dear Chairman Powell,

My name is William Willis and we need e-money in Cleveland. Our schools want us to have a good education one way is books but there is much more information on the internet. If we don't have the internet we are missing out on part of our education. So please keep giving our school email.

Sincerely,

William Willis

Dear Chairman Powell,

Our teacher told us today about the plan to cut the eRate money for our school because Cleveland schools have already received eRate money. I just want to let you know that I don't think that is fair. If the funding from eRate is cut, Cleveland schools will not be able to afford to pay for us to be able to use the internet at school.

We are growing up in a world where it is important for us to be able to use the internet. We use it for research. We can do projects with other schools all around the world. We learn so much from it – things that textbooks cannot teach us. Most of our families do not have computers at home, so school is the only place where we can have these kinds of experiences.

Please rethink your ideas and make sure that our school district can get eRate again next year. Remember, we are the future generation! Please help us.

Mr. Powell I think that if we loose the internet then English grades and daily talk grades. Our class with the internet we got to talk to kids in Spangin and told each other what our country is like.

U.S. DEPARTMENT OF JUSTICE

DEAR CHAIRMAN POWELL

Our social studies teacher told us about a internet problem. The internet help us find out explorations about King Tut, Egyptians, or Romans. Then we would know knowledge about that. When I have children my kids would ask me about Roman and Greek mythology. I would know everything about that. Then in the mean while I need the internet to do my projects. But we would need the internet to keep going in our future life. I AM a seventh grader in Forest Hill Parkway Academy that wrote this letter.

Sincerely,

Dealey Hill From

Dear Chairman Powell,

We have 3 computers in every room, not including office computers. We depend on the internet for our school. We really don't have enough class resources for a school year. Just think about it. What about 3 years from now and internet is not available and scientist find something new about different cultures, ~~the~~ Regular school books do not update themselves. That means we have to replace basicly new books with the updated ones. In result we have to spend thousands of "bucks" on new books. Internet is really helping our school. I personally think our school system needs this service.
