Needs and Uses: The Commission adopted rules providing support for all telecommunications services, Internet access, and internal connections for all eligible schools and libraries. To participate in the program, schools and

indicators of economic disadvantages). This requirement also arises in the context of determining which schools are eligible for greater discounts being offered to economically disadvantaged schools. 47 C.F.R. § 54.505(b)(1). Schools and libraries must also certify that they have developed a technology plan that has been approved by an authorized entity. The technology plan should demonstrate that the applicant will be able to deploy any necessary hardware, software, and wiring, and to undertake any necessary teacher training required to use effectively the services ordered pursuant to the section 254(h) discount. 47 C.F.R § 54.504(b)(2).

b. Submission of FCC Form 471 “Services Ordered and Certification.”

Schools and libraries that have ordered telecommunication services, Internet access, and internal connections under the Universal Service Mechanism for Schools and Libraries must file FCC Form 471 with the Administrator. Form 471 requires schools and libraries to list all services that have been ordered and the funding needs for the current funding year. 47 C.F.R. § 54.504(b)(2). This form also gathers information from schools and libraries about the technology currently available to the entity and what is made possible by their application for universal service fund discounts.

2. All schools and libraries planning to order services eligible for universal service discounts must file FCC Forms 470 and 471. The purpose of this information is to help determine which schools and libraries are eligible for the greater discounts. Schools and libraries must certify to the Administrator that they have developed an approved technology plan via Form 471. This requirement is designed to help schools and libraries avoid the waste that might arise from requests for services that the schools and libraries would be unable to use for the educational purposes intended.
3. Applicants will be able to electronically file or mail their submissions. Copies of the forms will be available via the Administrator’s website.
4. There will be no duplication of information. The information sought is unique to each respondent and similar information is not already available.
5. Entities directly subject to the requirements in the forms are primarily schools and libraries. The forms have been designed to impose the least possible burden on the respondents.
6. Failing to collect the information, or collecting it less frequently, would prevent the Commission from implementing section 254 of the 1996 Act and ensuring that the goals of affordable service and access to advanced services are met by means that enhance, rather than distort, competition.
7. Applicants are required to retain certain filings for five years. The records are needed in case the applicant is audited. If an applicant is audited, it should be able to demonstrate to the auditor how the entries in its application were provided.

8. Pursuant to 5 CFR 1320.8, the Commission placed a notice in the Federal Register. See 65 FR 3234, January 20, 2000. (Copy attached). No comments were received.
9. There will be no payments or gift to respondents.
10. The Commission is not requesting that the respondents submit confidential information to the Commission. If the Commission requests applicants to submit information that the respondents believe is confidential, respondents may request confidential treatment of such information under section 0.459 of the Commission's rules.
11. There are no questions of a sensitive nature with respect to the information collected.
12. The following represents the hour burden on the collections of information:
 - a. Submission of FCC Form 470 "Description of Service Requested and Certification."
 - (1) Number of respondents: Approximately 50,000 public school districts, private schools and public library systems.
 - (2) Frequency of response: On occasion. Each school and library must submit FCC Form 470, describing the services desired, to the Administrator.
 - (3) Annual burden per response: 4 hours. The total annual hour burden is 200,000 hours. This estimate includes the time needed for complying with the record retention requirement.
 - (4) Total estimate of the annualized cost to respondents for the hour burdens for collection of information: \$8,000,000.
 - (5) Explanation of calculation: We estimate that this obligation will take approximately 4 hours and will occur once a year for 50,000 schools and libraries. $50,000$ (number of respondents) \times 1 (number of submissions required) \times 4 (hours to prepare form, including time for reading instructions) \times $\$40$ per hour (including administrative staff time and overhead) = $\$8,000,000$.
 - b. Submission of FCC Form 471 "Services Ordered, Certification, and Termination."
 - (1) Number of respondents: Approximately 60,000 public school districts, private schools and public library systems.
 - (2) Frequency of response: On occasion. Each school and library must submit FCC Form 471, describing the services desired, to the Administrator.
 - (3) Annual burden per response: 4 hours. The total annual hour burden is 240,000 hours. This estimate includes the time need for complying with the record retention requirement.
 - (4) Total estimate of the annualized cost to respondents for the hour burdens for collection of information: \$9,600,000.
 - (5) Explanation of calculation: We estimate that this obligation will take approximately 4 hours and will occur once a year for 60,000 schools and libraries. $60,000$ (number of respondents) \times 1 (number of submissions

required) x 4 (hours to prepare form, including time for reading instructions) x \$40 per hour (including administrative staff time and overhead) = \$9,600,000.

Total Annual Burden = 200,000 + 240,000 = 440,000 burden hours.

13. (1) Total capital start-up costs component annualized over its expected useful life: \$0. The collections will not require the purchase of additional equipment.
(2) Total operation and maintenance and purchase of service component: \$0. The collections will not result in additional operation or maintenance expenses.
14. There will be few, if any costs to the Commission because notice and enforcement requirements are already part of Commission duties. Moreover, there will be minimal cost to the Federal government since an outside party will administer this program.
15. The public burden for the collections contained herein continues to be **440,000** burden hours. The collections are necessary to implement the universal service discount program for schools and libraries.
16. The Commission will make the information required by 47 C.F.R. § 54.504 publicly available on the Internet. Other non-proprietary information will likely be made publicly available although the Commission does not have specific plans for doing so at this time.
17. The Commission seeks continued approval to not display the expiration date for OMB approval of the information collections. Display of the expiration date on the forms and instructions would not be in the public interest because, after the six-month approval period, we would have to destroy all of the unused forms bearing the six-month expiration date. This would constitute waste and would not be cost effective.
18. Applicants are required to retain certain records longer than three years. Applicants must retain records to be able to demonstrate to the auditor how the entries in their application were provided.

B. Collections of Information Employing Statistical Methods.

The Commission does not anticipate that the collection of information will employ statistical methods.
