FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Dear Ms. Salas:

On behalf of WGUL-FM, Inc., licensee of Radio Station WGUL-FM, Beverly Hills, Florida, there are transmitted herewith an original and four (4) copies of a Petition for Rule Making, looking toward re-allotment of FM Channel 292C3 from Beverly Hills, Florida to Spring Hill, Florida, and modification of the WGUL-FM license to specify the new community of license.

Should additional information be necessary in connection with this matter, please communicate with this office.

Very truly yours,

James A. Koerner,
Counsel for
WGUL-FM, Inc.

cc: Mr. Carl J. Marcocci

PETITION FOR RULE MAKING

WGUL-FM, Inc., licensee of Radio Station WGUL-FM, Channel 292C3, Beverly Hills, Florida, by its attorneys, and pursuant to Sections 1.401 and 1.420(i) of the Rules (47 C.F.R. §§ 1.401 and 1.420(i)), hereby petitions the Commission to specify a new community of license, Spring Hill, Florida, for WGUL-FM. Specifically, WGUL-FM, Inc. requests that the Commission (i) delete Channel 292C3 as an allotment at Beverly Hills, Florida; (ii) add Channel 292C3 as an allotment at Spring Hill, Florida; and (iii) modify the license of WGUL-FM to specify Spring Hill, Florida, as the station's community of license. In support hereof, the following is submitted:

WGUL-FM, Inc. is the licensee of WGUL-FM, Beverly Hills, Florida, operating on Channel 292C3 (106.3 MHz) pursuant to BLH-20000928ADG.

As noted in the Technical Exhibit attached hereto, as Exhibit A, the allotment of Channel 292C3 at Spring Hill, Florida is mutually exclusive with the present allotment of that channel at Beverly Hills. Accordingly this falls within the purview of Section 1.420(i) of the Rules, Modification of FM and TV Authorizations to Specify a New Community of License, 4 FCC Rcd 4870 (1989), recon. granted in part 5 FCC Rcd 7094 (1990).

The proposal advanced herein will result in a preferential arrangement of allotments pursuant to the Commission's FM allotment priorities as set forth in Revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1982). These are (1) first full-time aural service; (2) second full-time aural service; (3) first local service; and (4) other public interest matters (co-equal weight given to priorities (2) and (3)). This will be a first local service to Spring Hill, Florida, the third priority.¹

Further, this will not deprive Beverly Hills of its only local service. Station WINV (AM), a Class D station on 1560 kHz, is authorized to operate at Beverly Hills, Florida, pursuant to BMJP-20010320AAB. While a license application for this facility has not yet been filed, it should be noted that WINV (AM) is commonly owned with WGUL-FM. The licensee is committed to completing the construction of WINV (AM), and will be filing an appropriate license application shortly.

¹ As demonstrated in the Technical Exhibit, priorities (1) and (2) are not applicable here.

Beverly Hills, located in Citrus County, Florida, has a population of 8,317 (2000 Census), a 35% increase over the 1990 population of 6,163.

On the other hand, Spring Hill, located in Hernando County, has a population of 69,078 (2000 Census) a whopping 122% increase over the 1990 population of 31,117. Spring Hill is the fastest growing area of Hernando County. In 1990, the population of Spring Hill was 30.8% of the total Hernando County population of 101,115. By 2000, it accounted for 52.8% of the county's 130,802 population.

Although unincorporated, and with most of its public services supplied by Hernando County, Spring Hill is a separate census designated urbanized area. Since Spring Hill is not within any other urbanized area, and since operation of WGUL-FM, as proposed, covers little of the Tampa-St. Petersburg-Clearwater urbanized areas, no Tuck analysis is required.²

There can be no doubt that Spring Hill qualifies as a "community" to which a channel can be allotted. As noted above and in the Technical Exhibit, it is a census designated urbanized area, with substantial population. It has numerous churches, retail business establishments and restaurants, many of which contain "Spring Hill" in their names. Exhibit B hereto consists of selected pages from Yahoo! Yellow Pages, noting the wide variety of businesses located in and associated with Spring Hill.

The Technical Exhibit also contains a demonstration of the areas and population, which would gain or lose service, as well as the other services available to such areas. In

² Faye and Richard Tuck, 3 FCC Rcd 5374 (1988).

addition, the Technical Exhibit demonstrates compliance with Commission Rules regarding minimum distance separation and coverage of the community of license.

If the Commission reallocates Channel 292C3 from Beverly Hills to Spring Hill, WGUL-FM will promptly file an application for a construction permit to operate WGUL-FM at Spring Hill, Florida, and, on the grant thereof, promptly construct and operate the facilities.

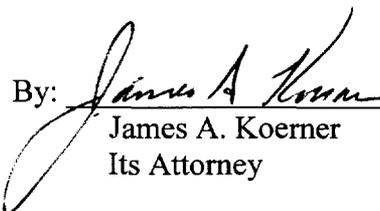

ACCORDINGLY, WGUL-FM, Inc. respectfully requests that the Commission amend the Table of FM Allotments as follows:

<u>City</u>	<u>Present</u>	<u>Proposed</u>
Beverly Hills, FL	292C3	-----
Spring Hill, FL	----	292C3

WGUL-FM, Inc. also requests that the WGUL-FM license be modified accordingly.

Respectfully submitted,

WGUL-FM, INC.

EXHIBIT A

TECHNICAL EXHIBIT
IN SUPPORT OF
A PETITION FOR RULE MAKING
TO AMEND THE FM TABLE OF ALLOTMENTS
BEVERLY HILLS AND SPRING HILL, FLORIDA

Technical Narrative

This technical narrative and associated exhibits have been prepared in support of a Petition for Rule Making (PRM) to amend Section 73.202(b) of the Federal Communications Commission rules by the reallocation of channel 292C3 (106.3 MHz) from Beverly Hills, Florida to Spring Hill, Florida, and the modification of the license of WGUL-FM for channel 292C3 at Beverly Hills, Florida, BLH-20000928ADG, Facility ID 26616, accordingly. As the requested change is mutually exclusive with the allotment of channel 292C3 at Beverly Hills, Petitioner invokes the provisions of Section 1.420(i).

The following is a summary of the reallocation proposal:

- The community of Spring Hill, Florida will be provided with its first local aural transmission service.
- The community of Beverly Hills, Florida will continue to have local aural service from AM station WINV (1560 kHz).
- The proposal meets the FCC's minimum separation requirements.
- The proposal will not create any aural (AM/FM) "white" or "gray" areas.

Proposed Change in Table of Allotments

The Petitioner's station WGUL-FM is currently licensed (BLH-20000928ADG) to operate on channel 292C3 at Beverly Hills, Florida with an effective radiated power (ERP) of 10.5 kW and an antenna height above average terrain (HAAT) of 154 meters. The present WGUL-FM transmitting facilities

(10.5 kW, 154 m) are equivalent to maximum Class C3 facilities (25 kW, 100 m). Beverly Hills is located in Citrus County, Florida. The population of Beverly Hill is 8,317 people (2000 Census). The 1990 Census population for Beverly Hills was 6,163 people. AM Class D station WINV on 1560 kHz is authorized to serve Beverly Hills. Therefore, adoption of the proposal will not deprive Beverly Hills of its sole "existing" local aural service.

Spring Hill is located in Hernando County, Florida. The population of Spring Hill is 69,078 people (2000 Census). The 1990 Census population for Spring Hill was 31,117 people. Spring Hill has no local FM or AM radio service and, therefore, Petitioner's proposal would bring a first local aural broadcast service to Spring Hill. Accordingly, Petitioner requests modification of the FM allocation table as follows:

<u>City</u>	<u>Present</u>	<u>Proposed</u>
Beverly Hills, FL	292C3	--
Spring Hill, FL	--	292C3

Compliance With FCC Rules

The attached Figure 1 is a tabulation of required separations pertinent to use of channel 292C3 at Spring Hill. The assumed allotment reference site (28-36-00, 82-33-45) complies with the Commission's minimum distance separation requirements contained in Section 73.207 of the FCC's rules to all existing, authorized and proposed stations and allotments.

Figure 2 is a portion of a USGS 1/24,000 scale topographic map showing the location of the assumed channel 292C3 Spring Hill allotment reference point.

Figure 3 is a map showing the area to locate for channel 292C3 at Spring Hill in compliance with the Commission's minimum distance separation requirements and city coverage requirements based on maximum Class C3 facilities (ERP

25 kW/HAAT 100 m). The proposed WGUL-FM allotment reference site is not located in a border zone requiring coordination with a foreign government.

Figure 4 is a map showing the predicted 3.16 mV/m (70 dBu) principal city contours and 1 mV/m (60 dBu) service contours for the present WGUL-FM operation (Beverly Hills, 10.5 kW, 154 m) and the proposed WGUL-FM Spring Hill channel 292C3 allotment (25 kW, 100 m). The following is the estimated population (2000 Census) within the present and proposed contours.

<u>Operation</u>	<u>3.16 mV/m Population</u>	<u>1.0 mV/m Population</u>
Present	134,426	313,960
Proposed	145,599	342,719

Urbanized Area Considerations

The 2000 urbanized area information is not yet available from the US Census, and according to US Census timetable, it is not expected to be available until mid 2002. Therefore, reference is made to the 1990 urbanized area information.

Beverly Hills is not located in an urbanized area. Spring Hill is a separate census designated urbanized area. There are no FM or AM radio stations licensed to Spring Hill or the Spring Hill urbanized area. The predicted 3.16 mV/m (70 dBu) contour for the present WGUL-FM operation encompasses 73% of the Spring Hill urbanized area and none of the Tampa-St. Petersburg-Clearwater urbanized area. The predicted 3.16 mV/m (70 dBu) contour for the proposed WGUL-FM channel 292C3 Spring Hill allotment encompasses 100% of the Spring Hill urbanized area and none of the Tampa-St. Petersburg-Clearwater urbanized area.

Gain and Loss Areas and Available Aural Services

Figure 5 is a map showing the predicted FM 1 mV/m (60 dBu) service contours for the present WGUL-FM operation (10.5 kW, 154 m) and the proposed WGUL-FM channel 292C3 Spring Hill allotment (25 kW, 100 m). The 1 mV/m "gain" and "loss" areas are indicated. The following is a summary of the population (2000 Census) and land area within the contours and the gain/loss regions.

<u>Contour</u>	<u>Population</u>	<u>Land Area</u>
Present WGUL-FM 1 mV/m	313,960	4,038 sq km
Proposed WGUL-FM 1 mV/m	342,719	3,076
1 mV/m Common Area	259,682	2,843
Present 1 mV/m Loss	54,278	1,195
Proposed 1 mV/m Gain	83,037	233

Figure 6 shows the other authorized aural (AM, FM) reception services available to the WGUL-FM 1 mV/m "gain" and "loss" areas. Since at least 5 other FM services were available to the "gain" and "loss" areas, no AM stations were considered. For FM stations the predicted 1 mV/m contour is shown. Figure 7 tabulates the FM stations whose contours are shown on Figure 6. The numbers on Figure 6 identify the FM service contours of stations tabulated on Figure 7. Only those FM services necessary to provide at least five (5) fulltime aural services to the gain and loss areas have been shown on Figure 7.

There are at least five other authorized aural services available to the "gain" and "loss" areas (i.e., neither area is underserved). The "gain" and "loss" areas do not include any "white" (0 AM/FM service) or "gray" (1 AM/FM service) areas.

Population and Area

The population within each FM primary service contour (1 mV/m), gain and loss area, and reception area was calculated using a computer program that utilizes the 2000 U.S. Census database of "population centroids". The program adds the populations of those U.S. Census designated areas whose centroid was within each service area. The land area within each FM primary service contour was calculated using a computer algorithm.

Conclusion

Channel 292C3 can be reallocated from Beverly Hills, Florida to Spring Hill, Florida in compliance with all applicable Commission Rules and International Agreements. The community of Spring Hill will be provided with a first local aural transmission service and the community of Beverly Hills will continue to have local aural service. The proposal will not create any white or gray areas. The Petitioner respectfully requests the reallocation of channel 292C3 from Beverly Hills to Spring Hill, Florida, and the modification of the license of station WGUL-FM for channel 292C3 at Beverly Hills to channel 292C3 at Spring Hill, Florida.
