The Real Access Alliance representatives updated Mr. Jordan on the status of the model agreement and other commitments made by the real estate industry regarding access to buildings. Participants also discussed some of the economic factors that affect competition for various services in buildings, particularly the provision of video services in apartment buildings. Finally, the participants discussed the need for coordination of public safety communications at the state and local level with on-site staff of office buildings and other properties in the event of large-scale emergencies.

Please contact me with any questions.

Very truly yours,

**Miller & Van Eaton, P.L.L.C.**
