Re: Cable & Communications Corporation
TRS #812411
Implementation Plans of Wireless E911 Phase II Automatic
Location Identification - CC Docket No. 94-102
Supplement to Revision to E911 Phase II Implementation Report

Dear Ms. Salas:

On September 14, 2001, Cable & Communications Corporation dba Mid-Rivers Cellular ("C&CC") filed its revision to its E911 Phase II Implementation Report pursuant to Section 20.18(i) of the Commission's Rules along with a Declaration by an authorized company representative attesting to the accuracy of the report. As indicated in the report, a facsimile copy of the Declaration was submitted. Enclosed please find the original Declaration for C&CC.

Also, subsequent to filing the report, it was discovered that a previous version of the Wireless E911 Status report was inadvertently submitted as Attachment 2. Enclosed please find the updated version of the Wireless E911 Status report. As referenced in the report, the updated version continues to demonstrate that none of the PSAPs in C&CC's service area has requested either Phase I or Phase II E911 service.

Please contact the undersigned with any questions regarding this matter.

Respectfully submitted,

John Kuykendall
Its Attorney
