

Dear Chair Powell:

I am writing to express my concern about possible changes to the ownership rules regarding media. I feel that allowing cross ownership of media in the same market is not good capitalism. To give the consumer the best possible product is to have companies compete fairly. Allowing cross ownership will only consolidate ownership into the hands of a few corporation and will not foster competition.

In the name of capitalism and the American way, please vote NO on allowing cross ownership of media in the same market.

Thank you,

Fred Tsui
