

Do not lift the few remaining restrictions to "Cross-ownership" among our media corporations. The American public will suffer greatly from a reduction in these restrictions. Unbiased news is almost non-existent on the current stage and lifting the remaining small restrictions so that corporations such as Fox News and CNN and Disney etc.. can OWN all the information the public has available to it. This is undoubtedly the most dangerous "slope" we have been on in our lifetime and one that if we fall over the edge of WILL certainly signal the end of our democracy. A democracy is only as good as the information that is shared with its public. We all need good independent information in order to be good informed citizens. Decreasing our ability to obtain alternative viewpoints and information that might run amiss of what the government would LIKE for us to believe helps us retain trust in our government. TRUST is critical. If we lose that TRUST.. you will lose us !  
and more importantly our money.

DO NOT REMOVE ANY MORE RESTRICTIONS TO CROSS OWNERSHIP FOR MEDIA. Help the common citizen hold onto their faith and trust by showing us that we do not have to constantly guard the door to information. It appears as though the FCC is trying to close that door repeatedly. Let information flow freely and let media GIANTS follow the FEW restrictions that are placed upon them.
