

Dear Sir or Madam:

There are laws that prevent monopolies, and I believe there should be laws such as the cross-ownership ban. As of now the United State's media outlets do a a very poor job in informing the public. The Events that happened on Sept. 11 is proof. How many times did the media broadcast incorrect news? Many. We should make laws that encourage competition as well as diversity. Especialy in our news. One company controlling all news outlets for a given area will discourage diversity as well as thought. Americans deserve different views in their news. That is what makes us a great country. Let us not destroy our diversity and keep the cross-ownership ban. Thank you for your time.
