Washington DC 20554

**Re: ET Docket No. 98-153 -- Revision of Part 15 of the Commission's Rules Regarding
Ultra-Wideband Transmission Systems
*Ex Parte Communication***

Dear Ms. Salas:

Pursuant to Section 1.1206(a)(2) of the Commission's Rules, on behalf of XtremeSpectrum, Inc., I am filing this letter electronically to report an oral ex parte communication in the above-referenced proceeding.*

Today Martin Rofheart and John McCorkle of XtremeSpectrum, Inc. made a presentation to the Interdepartment Radio Advisory Committee (IRAC) at the National Telecommunications Information Administration, accompanied by Michele Farquhar, Esq., of Hogan & Hartson, L.L.P., William Gamble, and the undersigned. Among those in attendance were Fred Thomas, John A. Reed, and Kathryn Hosford of the Commission staff.

With this letter, I am submitting to the docket a slide package titled "Presentation to IRAC" that formed the basis for XtremeSpectrum's talk, and a separate package titled "Presentation to IRAC of Detailed Technical Analysis of Systems Studied in NTIA Reports" that XtremeSpectrum left behind.

* XtremeSpectrum, with 67 employees, conducts research in ultra-wideband communications systems as its sole business. XtremeSpectrum intends to become a ultra-wideband communications manufacturer once the Commission authorizes certification of such systems. XtremeSpectrum takes no position on ultra-wideband radar applications.

Ms. Magalie Salas
