REPLY COMMENTS OF MAURICE SALSA TO REPLY COMMENTS

I, Maurice Salsa, hereby respectfully submit this Reply to Reply Comments filed by Radio One Licenses, Inc. ("ROL") in the above captioned proceeding.

DISCUSSION

Petitioner respectfully submits that the public interest would be served by allocating Channel 234C3 to Valliant, Oklahoma, as that community's first aural broadcast transmission service.

On August 30, 2001, after the August 22nd adoption date of the Valliant, Oklahoma NPRM, ROL filed a minor change application to modify the facilities of Station KTXQ-FM operating on Channel 233C at Gainesville, Texas. The KTXQ Application conflicts with the above captioned proceeding, MM Docket No. 01-216.

ROL in their Comments to this proceeding proposed two alternatives in order to accommodate both the 1st service to Valliant, Oklahoma and the KTXQ-FM Application. Both alternatives should be rejected by the Commission and Channel 234C3 should be allotted to Valliant, Oklahoma.

ROL in their Reply Comments to this proceeding propose an over all solution to this proceeding and to the Broken Bow proceeding, MM Docket No. 01-209.

ROL restates KTCY's comments in the Broken Bow proceeding as follows:

Channel 265A at Broken Bow in lieu of 285A.

Channel 227A at Antlers in lieu of 284A.

Channel 226A at Wright City to site restrict.

ROL supports the KTCY comments except for the following:

Channel 224A to Broken Bow in lieu of 232A.

Channel 286A to Wright City in lieu of 226A site restriction.

ROL's proposal must be dismissed as defective for two reasons.

First of all, Channel 227A Antlers at the coordinates as specified in KTCY's Comments (34 17 01/95 41 48) is not available. 227A Antlers is short by -25.8 Km to KKNB Newcastle, Oklahoma 227C allotment. The attached channel study shows that Channel 227A cannot be allotted to Antlers, Oklahoma in compliance with the Commission's spacing rules at the site proposed by KTCY.

Secondly, Channel 224A at Broken Bow at the coordinates as specified in ROL's Reply Comments (34 00 00/94 49 50) is not available. 224A Broken Bow is short by -111.2 Km to Channel 224C2 a used allocation to Blossom, Texas. The attached channel study shows that Channel 224A cannot be allotted to Broken Bow, Oklahoma in compliance with the Commission's spacing rules at the site proposed by ROL.

For the foregoing reasons, I urge the Commission to allot Channel 234C3 to Valliant, Oklahoma. Should the Commission allot Channel 234C3 to Valliant, Oklahoma, I will apply for Channel 234C3, and after it is authorized, will promptly construct the new facility.

The information provided in this Reply to Reply Comments is correct and true to the best of my knowledge.

Respectfully submitted
