Dear Sir or madam,

I learned about the IP-Relay system on the computers where the customers would be able to use it. I am using it for two weeks now and suddenly there isnt working IP Relay on my computer. I wonder does the IP Relay is going thru some changes? I find the IP Relay helpful because it is visual. Also I can do few things at the same time on the computer. TTY is good but I felt comfortable using the IP Relay on the computer. So, I would like to have that system back, please. Thank you kindly.

Trina Baylor
