**Re: PSWN Program Informational Materials**

Chairman Powell, FCC Commissioners and Staff:

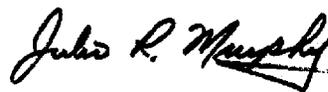

The Public Safety Wireless Network (PSWN) Program appreciates the opportunity to have visited your offices last week to present the public safety community's critical needs to ensure communications interoperability. Although the official notices of those ex parte meetings have already been filed, the PSWN Program would like to provide copies of several of its latest informational materials to better acquaint you with its mission and roles. These materials are all available to the public, free of charge, via the PSWN web site, <http://www.pswn.gov>, or through our toll free number, 1.800.565.PSWN.

*"No man, woman, or child should lose his or her life because public safety officials cannot talk to one another."*

The PSWN Program looks forward to continuing to support the Commission in its critical role of ensuring that public safety communications are adequate to support critical homeland security initiatives during these difficult times and beyond. Should you have any further questions, or require any additional information or materials, please do not hesitate to contact the undersigned.
