RECEIVED

DEC - 3 2001

**FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY**

To: Magalie R. Salas, Secretary of the FCC
cc: Sanford Williams, CCB

Subject: Ex Parte Meeting on Wednesday, Nov. 28, 2001 regarding FNOPR
01-175 (under Docket 94-102)

On Wednesday, November 28, 2001, I spoke to a sub-group of the North American Numbering Council (NANC) regarding my proposed technology known as System Beta. Although the main topic of the meeting was application of this technology to the problems of number exhaustion and area code proliferation, I did mention incidentally that this same technology can be used to solve the problem of call back to cell phones that make a 911 call but do not have a unique in-service telephone number. I had previously filed two comments on this FNOPR.

Mr. Sanford Williams was the only FCC staff member present.

Regards,
Richard Levine, Sc. D., P.E.
