RE: Application by Verizon-New England Inc. for Authorization To Provide In-Region,
InterLATA Services in State of Rhode Island, Docket No. 01-324

Dear Mr. Caton:

Yesterday, E. Young, M. Glover, K. Zacharia and D. May of Verizon met with Commissioner Abernathy and M. Brill to discuss the above application. All issues discussed have been previously placed on the record. The handout provided in that meeting is enclosed. Please let me know if you have any questions. The twenty-page limit does not apply as set forth in DA 01-2746.

Sincerely,

Clint E. Odom

This booklet outlines the toll-free calling areas for *Cox Digital Telephone* customers. Toll-free calling areas are the locations which you can call without an additional charge other than your monthly phone service fee.

As the following maps indicate, toll-free calling areas vary depending on service location. These areas are defined by the first 3 digits of a telephone number. A list of toll-free calling in Massachusetts and Connecticut can be found on pages 38 and 39 of this booklet. Please save this booklet for a quick reference of all the places you can call toll free from your town—with *Cox Digital Telephone*.

Please note! Calls to Providence are toll free from all *Cox Digital Telephone* locations!

Should you still have a question regarding your local calling area, a friendly *Cox* customer service representative is ready to help you at 1-888-222-7743.

Better Technology

Cox Digital Telephone service is provided over the same superior digital fiber-optic network that has made Cox first in reliability. Our state of the art technology assures you of crystal-clear connections. To keep your phone service trouble-free, we monitor the network 24 hours a day.

Better Customer Service

You can expect excellent customer service from our award-winning team of customer care professionals. We schedule service calls to be as convenient as possible. And we give you an On-Time Guarantee that guarantees we will arrive within our promised service window - if we don't, you'll receive a credit on your next bill.

Satisfaction Guaranteed

To make it even easier to enjoy the better choice, we guarantee your satisfaction. If you're not completely satisfied with Cox Digital Telephone service, we'll refund your first month's charges on your primary line (excluding local toll and long-distance charges).

*Savings refer to primary and additional line flat rate service plan. Price reflects Cox

Preferred Rates (for customers who have at least one other qualifying Cox service).

All the
calling features
you need to save
TIME and MONEY!

Cox Calling Features

*Your connection
to convenience
and savings*

Cox Calling Features are a key part of our commitment to bringing you the best value in telephone service. Our calling features are designed to help you save time and control your communications. Plus, our features are easy to use. And, best of all, both our phone service and our calling features come at lower rates than the big local phone companies charge.*

Don't Worry About Missing Calls With . . .

*Call Forwarding *72*

Let your calls follow you wherever you go

Just by pressing a few buttons, you can program your calls to ring at another number – whether it's your office, a friend's house, your cellular phone . . . wherever you're going to be! It's ideal when you want to be sure you receive all calls even when you won't be home to answer them.

*Call Forwarding Busy *90*

When your line is busy, your callers can get re-directed

Make sure your callers never get an annoying busy signal! When you activate Call Forwarding Busy, your phone will forward calls to another number whenever you're on the phone. That allows your callers to talk to or leave a message with another person of your choice. It's a helpful convenience for both you and your callers.¹

*Call Forwarding No Answer *92*

Whenever you can't answer, forward your calls to another number

When you're too busy to get to the phone or your hands are occupied, you'll be sure your calls will still be answered. Once your phone rings the number of times you determine, the call will be forwarded to another number of your choice.¹

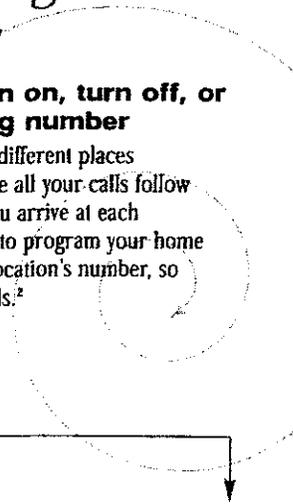

¹ Cox Voice Mail automatically includes this service. However, Cox Voice Mail customers have only limited functionality for Call Forwarding. *Call Forwarding (*72) is the only service available through Call Forwarding Remote Access.

Call Forwarding Remote Access

From any location – turn on, turn off, or change your forwarding number

When you're going to be in several different places throughout the day, you'll make sure all your calls follow you everywhere you travel. When you arrive at each destination, you can use any phone to program your home phone to forward calls to the new location's number, so you can receive those important calls.²

Call Waiting

You'll know when someone is trying to reach you

You'll make sure you won't miss important calls while you're on the phone. A special tone alerts you that another caller is trying to reach you. Just press the switch hook and answer the new call, while your first caller is on hold. Family and friends will know they can get through in an emergency. And there's no need to rush your current conversation because you're expecting an important call.

Call Waiting ID

Find out who's calling without interrupting your current conversation

Call Waiting ID enables you to see who's trying to call while you're on the phone. The Call Waiting tone alerts you that another call is on the line, and your Caller ID displays the new caller's name and number. That lets you decide whether you want to answer the incoming call, or let voice mail take a message from that caller.³

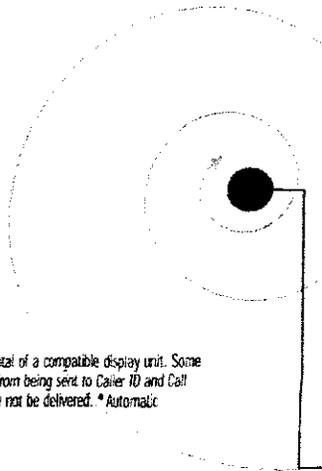

Voice Mail

Let Voice Mail answer your phone any time

Voice Mail takes messages while you're on another call or on the Internet, and when you're not home or you can't get to the phone. It's your own personalized answering service built into your phone! Unlike answering machines, there's no equipment to break down. It's easy to use and makes sure every caller can leave a message, no matter how much you're on the phone. Plus, you can retrieve your messages from anywhere. With our Automatic Callback capability, you can also easily return calls while checking your messages.⁴

³ Subscription to Call Waiting ID requires purchase or rental of a compatible display unit. Some callers can block their names and telephone numbers from being sent to Caller ID and Call Waiting ID customers, so some calling information may not be delivered. ⁴ Automatic Callback does not work on international or 900 calls.

Save Time With . . .

*Busy Line Redial *66*

Get through to people as soon as they're off the phone

When you can't reach someone because the line is busy, let your phone automatically dial the number every minute. When the line is free, Busy Line Redial alerts you by calling you back with a special ring. This feature saves you from taking the time and effort to dial busy numbers over and over.^{5,6}

*Call Return *69*

Easily dial your last caller – even if you didn't answer in time

If you can't get to the phone in time to answer a call, you can still find out who just called you. Simply press *69 to hear the caller's phone number, then you can return the call by dialing 1. It's another way your phone can help you avoid missing calls and efficiently keep in touch with family, friends and colleagues.^{5,6}

*Speed Calling *74*

Quickly dial your most frequently called numbers

Speed Calling saves you time by storing eight phone numbers of your choice, from your best friend to your doctor to your favorite pizzeria! That way, you won't have to look up those numbers, and you can make a call by pushing *74.

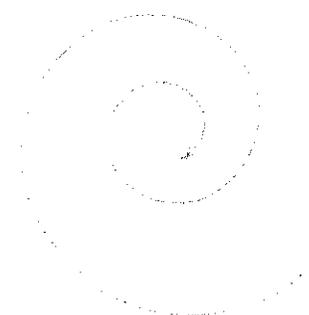

⁵ Does not work on 800 numbers, 900 numbers, outside the specified service area, or lines where Call Forwarding and some other call services have been activated. ⁶ These features are available on a pay-per-use basis for nominal charges, in addition to being available for a low monthly subscription fee.

*Three-Way Calling *71*

Talk with two other people in different places – at the same time

With Three-Way Calling, there's no need to make multiple calls to get things done! When your talking with another person, simply push a button to add a third person to the conversation. It's ideal for brainstorming with business associates, reminiscing with friends from your school years, making plans with friends and relatives – and much more.⁶

Maintain Privacy and Security With . . .

Caller ID

See who's calling before you answer the phone

Caller ID displays a caller's name and phone number while your phone is ringing, allowing you to easily screen your calls. You decide whether you want to talk now, or call back later. It also provides security by enabling kids and senior citizens to answer calls only from family members. And Caller ID logs all calls, letting you easily return missed calls and identify harassing callers.⁷

Caller ID Blocking

Control who can identify your calls

By dialing *67 – the **Caller ID Per-Call Blocking** code – before you make a specific call, you can prevent your phone number from being identified by the person or organization receiving your call. If you want to prevent your phone number and name from being identified every time you make a call, **Caller ID Per-Line Blocking** is for you. You can even easily de-activate the feature for a specific call by dialing *82 – ideal if you want only that specific person to be able to identify your call.⁷

⁷ Caller ID requires purchase or rental of a compatible Caller ID display unit. Some customers can block their names and telephone numbers from being sent to Caller ID customers, so some calling information may not be delivered.

*Long Distance Alert *49*

Lets you identify incoming long-distance calls

With this special feature, long-distance calls have a distinctive ring and call-waiting tone. Long Distance Alert lets you instantly know when someone like Grandma, a business colleague or other important person is calling from out of town or another country.*

900 and 976 Number Blocking

Restricts calls to 900 and 976 numbers from being made from your home

This feature is the best way to make sure expensive toll calls to 900 and 976 numbers cannot be made from your home. In addition to preventing these unwanted toll charges on your phone bill, you can help protect your children from reaching phone numbers that are not intended for children's use.*

*Priority Ringing *61*

You'll know when someone special is calling

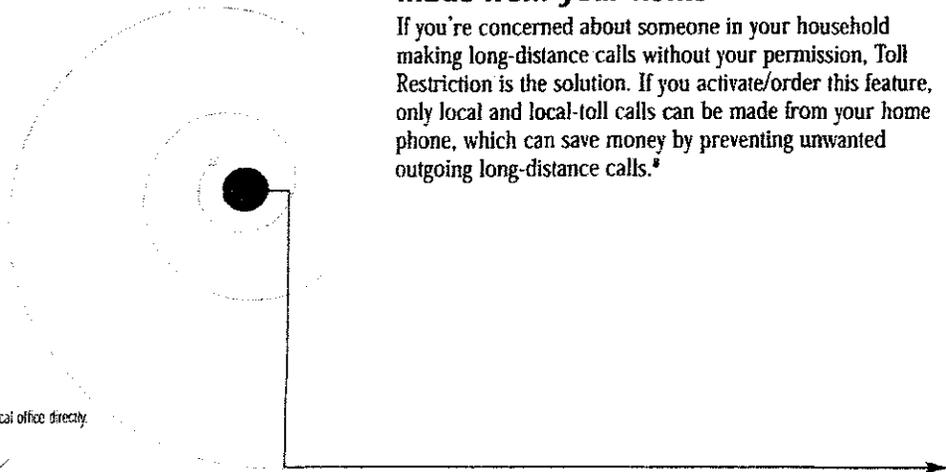

Priority Ringing provides a great way to identify important people. Just program a list of special callers into your phone, and a unique ring lets you know when one of them is calling. And if you also have Call Waiting, a special tone alerts you that a priority call is trying to get through while you're on your current call.

Toll Restriction

Restricts long-distance calls being made from your home

If you're concerned about someone in your household making long-distance calls without your permission, Toll Restriction is the solution. If you activate/order this feature, only local and local-toll calls can be made from your home phone, which can save money by preventing unwanted outgoing long-distance calls.*

* In order to activate the service, you must contact Cox's local office directly.

Get the most out of your phone service with Cox feature packages

Active Lifestyle Package

Make your phone work harder for you

☒ Call Forwarding *72 ☒ Speed Calling *74

☒ Three-Way Calling *71 ☒ Busy Line Redial *66

Together, these features make *all* your communication faster and easier. They keep you in complete touch with family, friends and colleagues. And they give you full control over your communications.^{9, 10}

More ways to save on every call you make

Cox U.S. Savings Plan

**The same low rate on every call.
Any day. Anytime.**

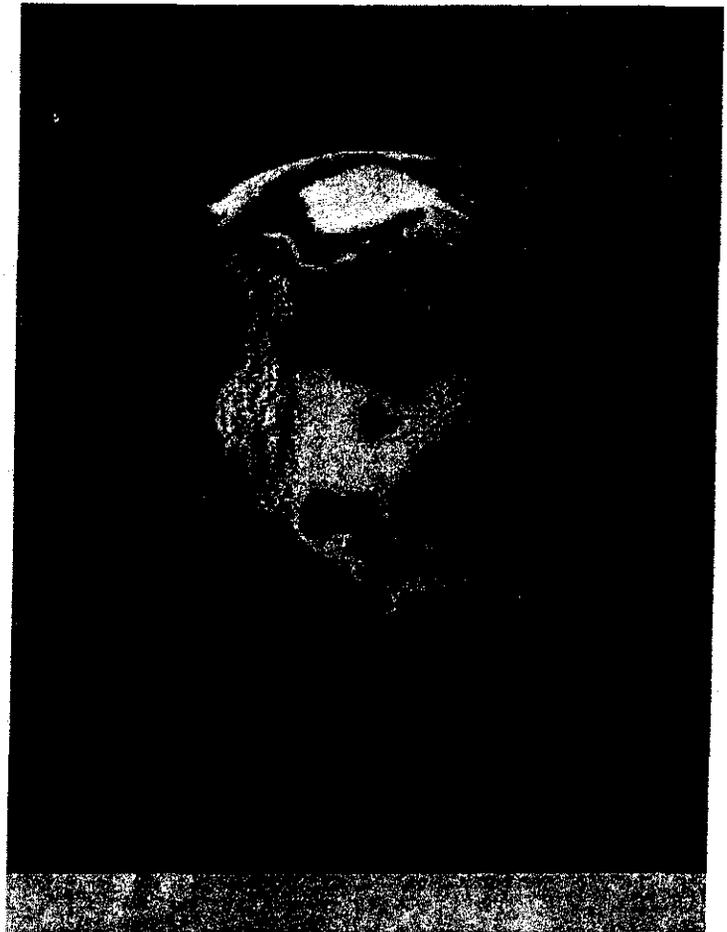

With the Cox U.S. Savings Plan, all direct-dialed calls within the U.S. are just 7 cents per minute, 24 hours a day, every day – with no additional set-up fees. There's no need to wait to make calls at a certain time or on a certain day! Plus, you'll get the same low rate for in-state calls as state-to-state calls. And our \$3.95 monthly fee is lower than other long-distance plans. You'll also enjoy the convenience of having all your local and long-distance calling charges on one bill, from one company you know and trust.¹¹

Cox Long Distance Standard Plan

Low flat rates around the clock

With Cox Long Distance, there are no gimmicks. No usage time or time of day restrictions. No confusion! Just one simple, low flat rate of 10 cents per minute on state-to-state calls within the U.S. – 24 hours a day, every day. And you'll enjoy the convenience of having your local and long-distance calls on one bill, from one trusted company. We even make sure you get the lowest rate on the type of calls you make most – in-state long distance.¹¹

¹¹All long distance and International Savings Plan flat rates available only to Cox Digital Telephone residential customers who subscribe to Cox local, intrastate toll and interstate toll services. Pricing subject to change and does not include taxes or surcharges. Service may not be available in all areas. Other restrictions apply.

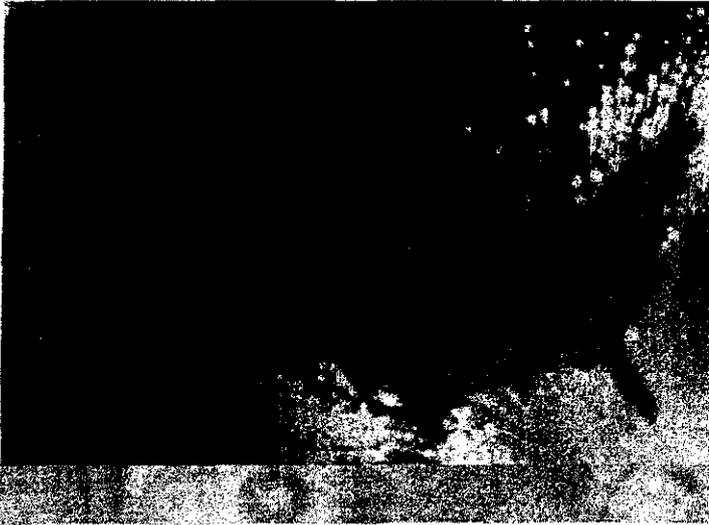

Cox International Savings Plan

Save on calls to over 230 countries

The Cox International Savings Plan delivers low rates on international calls anytime, with a monthly service charge of only \$2.95. There are no confusing restrictions on the time of day or length of your call. That way, you can call other countries whenever it's convenient for you, without needing to hurry your calls or waiting to make calls at specific times.¹¹

Visit our website at www.cox.com to see our low rates for specific countries.

Cox Digital Telephone Calling Card

**Wherever you go, take low Cox rates
with you**

With the Cox Digital Telephone Calling Card, you get a low rate on *all* customer-dialed calls within the continental United States, with no additional per-call surcharges – unlike other calling cards that include high surcharges and expensive per-minute rates. It's the ideal way to enjoy maximum savings on calls made from shopping centers, airports, restaurants, school and hotel phones.¹²

**Although there is no per-call surcharge associated with the calling card, a \$.30 surcharge applies for all card calls originating from pay phones. Rates subject to change, and do not include taxes or surcharges. Other limitations apply.

Cox Calling Features put total communication convenience and control at your fingertips. And you can save money too. So start getting the most out of your telephone service today.

**Call today to order or
