Dear Sirs,

On or about January 10<sup>th</sup>, 2002 Donald F. White and Jerry E. White D/B/A Morgan Radio Company mailed to the above address a "Petition for Rulemaking" requesting the Commission assign FM channel 228A to Morgan, Georgia. Upon reviewing the rules we find that we may not have sent enough copies of the petition.

The petition was filed in triplicate, but we have read that five total copies should have been sent. Just in cast we are sending two more copies to be placed with the three already mailed.

These are copies, plus knowing the Commission is trying to streamline most of it's processes, we took a very streamline approach to the engineering exhibit that is attached. If this turns out to be a little to streamlined for the Commission to act on, we would like to respectfully request that you please notify us and will amend the petition with more of our engineering study.
