NOTICE OF PROPOSED RULE MAKING

Adopted: March 13, 2002;

Released: March 22, 2002

By the Chief, Allocations Branch:

1. The Allocations Branch has before it a petition for rule making filed by Alexandra Communications ("petitioner"), permittee of Station KIJ-FM, Channel 256C1, Walla Walla, Washington, proposing the reallocation of Channel 256C1 from Walla Walla to Burbank, Washington, and the modification of Station KIJ-FM's construction permit accordingly.¹ Petitioner states its intention to apply for the channel, if reallocated to Burbank.

2. The proposal is filed pursuant to Section 1.420(i) of the Commission's Rules which permits the modification of a station's authorization to specify a new community of license without affording other interested parties an opportunity to file competing expressions of interest. See Modification of FM and TV Authorizations to Specify a New Community of License, 4 FCC Rcd 4870 (1989), recon. granted in part, 5 FCC Rcd 7094 (1990). In support of its proposal, petitioner states that the reallocation of Channel 256C1 to Burbank would result in a preferential arrangement of allotments pursuant to the FM allotment priorities set forth in the Revision of FM Assignment

¹ An application (File No. BALH-20010228AAN) to assign Station KIJ-FM from Mark Jacky Broadcasting to Alexandra Broadcasting was granted on March 26, 2001, and was consummated on April 19, 2001.

Policies and Procedures, 90 FCC 2d 88, 91 (1982), because it could potentially provide a first local service to the community.^{2 3} Petitioner further states that Burbank is a Census Designated Place with a 1990 U.S. Census of 1,745 persons (the 2000 U.S. Census is 3,303 persons). Since petitioner does not seek to change its Class C1 authorization site, a gain and loss area study is not required. Because the Commission has expressed its concern with the potential migration of stations from rural to urban areas, we note that Burbank is located outside the Richland-Kennewick-Pasco, Washington Urbanized Area. However, Station KIJ-FM's 70 dBu signal currently covers approximately 61% of that Urbanized Area. Since Station KIJ-FM does not seek to change its transmitter site, a Tuck analysis is not necessary.⁴ However, petitioner is requested to provide the overall public interest benefits that would be derived from the reallocation.

3. We believe that this proposal warrants consideration since the reallocation would provide a first local aural transmission service to Burbank, Washington, without depriving Walla Walla, Washington of its sole local service.⁵ An engineering analysis has determined that Channel 256C1 can be reallocated to Burbank in compliance with the Commission's minimum distance separation requirements at the petitioner's authorized construction permit site.⁶ As requested, we propose the modification of Station KIJ-FM's license to specify operation on Channel 256C1 at Burbank, Washington, as its new community of license. In accordance with the provisions of Section 1.420(i) of the Commission's Rules, we shall not accept competing expressions of interest in the use of Channel 256C1 at Burbank, Washington.

4. Accordingly, we seek comments on the proposed amendment of the FM Table of Allotments, Section 73.202(b) of the Commission's Rules, for the communities listed below, to read as follows:

² The FM allotment priorities are: (1) First full-time aural service; (2) Second full-time aural service; (3) First local service; and (4) Other public interest matters. [Co-equal weight given to priorities (2) and (3).]

³ We note that Pamplin Broadcasting-Washington, Inc., filed an application (File No. BNP-20010315AAO) for an AM station (1560 kHz) at Burbank, Washington, which is pending.

⁴ See Headland, Alabama and Chattahoochee, Florida, 10 FCC Rcd 10352 (1995); Huntington Broadcasting Co. v. FCC, 192 F.2d 33 (D.C. Cir. 1951); RKO General, Inc., 5 FCC Rcd 3222 (1990); and Faye and Richard Tuck, 3 FCC Rcd 5374 (1988).

⁵ Stations KGDC(AM), KIJ(AM), KTEL(AM), KWWS (NCE), KWCW(NCE), KTWY(FM), KNLT(FM), KXRX(FM), and KHSS(FM) would remain licensed to the community.

⁶ The coordinates for Channel 256C1 at Burbank are 45-57-22 North Latitude and 118-41-11 West Longitude.
