New “Pro Forma” Rule

47 C.F.R. § 1.767(g)(7). The new rule permits post-transaction notification of pro forma assignments and transfers of control of interests in submarine cable landing licenses.

Acceptance of Rule Provisions

GCI hereby accepts and will abide by the provisions of the new pro forma rule (47 C.F.R. § 1.767(g)(7)), which reads as follows:

A pro forma assignee or a person or company that is the subject of a pro forma transfer of control of a cable landing license is not required to seek prior approval for the pro forma transaction. A pro forma assignee or person or company that is the subject of a pro forma transfer of control must notify the Secretary, Federal Communications Commission, Washington, D. C. 20554, with a copy to the Chief, International Bureau, Federal Communications Commission, no later than thirty (30) days after the assignment or transfer of control is consummated. The notification may be in the form of a letter (in duplicate to the Secretary), and it must contain a certification that the assignment or transfer of control was pro forma, as defined in § 63.24(a) of this chapter, and, together with all previous pro forma transactions, does not result in a change of the licensee’s ultimate control. A single letter may be filed for an assignment or transfer of control of more than one license issued in the name of a licensee if each license is identified by the file number under which it was granted.

Respectfully submitted,
