

May 24, 2002

Ms. Marlene H. Dortch
Secretary
Federal Communications Commission
445 12 St. SW
Washington, DC 20554

Ex Parte Submission
ET - Docket No. 98-153
Ultra-Wideband Transmission Systems

Dear Ms. Dortch:

A presentation was made by the GPR Service Providers Coalition to staff of the FCC's Office of Engineering and Technology on May 22, 2002 at the Commission's offices. Present for the FCC were Edmond Thomas, Julius Knapp, John Reed, Karen Rackley, Michael Marcus and Ron Chase. The participants discussed the uses of GPR technology, the need to expand the eligibility definition for GPR users, the coordination process for GPR use, whether the power levels specified in the rules are appropriate, and the possibility of interim relief measures for the GPR industry while the rules are being refined.

Sincerely,

Donald J. Evans
Counsel for the GPR Service Providers Coalition
