RE: FM Translator Station K229AE in Springfield, MO

To Creative Educational Media, a.k.a. "The Oasis Network":

Please consider this as my letter of support of the programming that you provide on your FM translator station and for your continuing efforts to seek an improvement of the valuable radio service that you provide.

Although this area is well served by numerous local radio and television stations, your FM translator programming provides substantial public interest programming that is simply not provided by other local broadcasters. We are thankful for the radio service that you provide.

I understand that you are in the process of asking the Federal Communications Commission to change its rules so that K229AE, 93.7fm in Springfield, may receive its programming via satellite, which would result in a better quality signal and a more reliable delivery method. I applaud and support those efforts.

we have listened to the Oasis Network for several years as we traveled back and forth from Missouri to Texas, so we were so pleased to have a station here in Missouri. We are in support of their desire to produce a better translator signal to the Springfield area. Thank you for your assistance in this matter.

P.S. To whom it may concern (FCC),  
Springfield, Mo. has plenty of  
stations with a negative  
message (Some Thrash). We need  
the POSITIVE message of  
K229AE - PLEASE
