RE: New Phone Number, Affecting RM-10412

Dear Commissioners and Commission Staff,

My name is Don Schellhardt, Esquire. I have been one of the commenting parties in FCC Docket RM-10412. The Docket concerns Nikolaus E. Leggett's proposal for mandating the field reparability of certain communications equipment -- in an effort to assure its viability and usefulness during large-scale disasters, natural or man-made, or during other widely disruptive emergencies.

This letter is a followup to my June 17 "Change of Address" notification. At the time of that submission, I had not yet been informed what my new telephone number will be. I have since been apprised, however, that my new phone number will be **(303) 215-1687**.

I have also been apprised that this new phone number will be activated "on or before" 7:00 p.m. Mountain Time (9:00 p.m. Eastern Time) on Monday, June 24.

Sincerely,

Don Schellhardt, Esquire
