**Sprint will no longer provide your local telephone service in California.
Please contact us immediately to discuss service options if you have not
selected another provider.**

Dear Customer,

As previously advised, Sprint will no longer provide local telephone service on a resold basis in the state of California. We're contacting current Sprint customers to make them aware that Sprint has announced it will discontinue providing local resale telephone communications services as of July 25, 2002. Pursuant to a letter sent to you by Sprint on June 10, 2002, the decision to discontinue local telephone service will not impact your provider for local toll and/or long-distance service(s).

In order to ensure uninterrupted dialtone if you do not choose another carrier, SBC Pacific Bell Telephone Company has been designated by the California Public Utilities Commission as the carrier to migrate your services from Sprint. Although SBC Pacific Bell is excited to provide your local communication services, you have the option to select another company to provide local service. There are many telecommunications providers in your area to choose from and you have the option to select any one you like. A list of competitive local telephone service providers can be found in your local telephone directory. If you do decide to select another provider, you will need to contact the other provider to request the change.

If you do not affirmatively select a new local telephone service provider on or before July 25, 2002, and you meet the minimum tariff requirements for obtaining local service from SBC Pacific Bell, SBC Pacific Bell will become your local telephone service provider effective July 26, 2002. While the migration of your local telephone service will not impact your provider for local toll and/or long distance service(s), if you have a preferred carrier freeze that prevents unsolicited changes on your local toll and/or long distance service(s), the freeze will be removed. After the migration, you must contact SBC Pacific Bell to reinstate any freeze protection. After migration to SBC Pacific Bell, your local telephone number will remain the same, however, your calling features, like Caller ID or Call Waiting, will be removed from your service. In order to avoid losing your calling features and to ensure high quality of service and a tailored approach, we would like to talk to you about your telecommunications needs. Please contact a Service Representative, at 1-888-732-9800 (English), or 1-888-420-5200 (Spanish), to allow us the ability to obtain permission to use your existing account information so that we may migrate your existing additional features and services without interruption, or perhaps recommend a customized solution to your local telephone service needs. Please call our offices by July 25, 2002 to avoid losing the flexibility these enhanced features offer you today.

On the other hand, if you do not meet the minimum tariff requirements for obtaining local service with SBC Pacific Bell, your service will not be eligible for transfer on July 26, 2002. Those customers who are not eligible for transfer will be disconnected on July 26, 2002.

Pursuant to the letter you received from Sprint, dated June 10, 2002, Sprint stated that it would credit your account for any tariffed service connection charges you incur as a result of migrating to another local carrier. In migrating your local service to SBC Pacific Bell, SBC Pacific Bell will charge you service connection charges in accordance with our tariff. Sprint will credit your account for these charges. Should you have any questions regarding the foregoing or discontinuation of your current local service, please contact Sprint at 1-800-425-0982 (English), or 1-877-818-8426 (Spanish). Sprint will continue to handle any existing claims or outstanding complaints you may have.

We value and appreciate your business. We know you will be very satisfied with service from SBC Pacific Bell. If we can be of further assistance, please contact us at 1-888-732-9800 (English), or 1-888-420-5200 (Spanish).
