Re: Ex Parte Contact  
In the Matter of AT&T Corp. v. Sprint Spectrum d/b/a Sprint PCS, WT Docket  
No. 01-316

Dear Ms. Dortch:

On Monday July 1, 2002, I had a telephone conversation with Sam Feder, Legal Adviser to Commissioner Kevin Martin, to discuss issues related to the foregoing proceeding. I reiterated once again AT&T's view that the Commission should deny Sprint's petition to permit it to selectively avail itself of regulation in order to recover access charges and grant AT&T's petition for declaratory ruling that the traditional bill and keep regime should be maintained for wireless minutes until such time as the Commission examines the wisdom of changing that regulatory structure in the context of the inter-carrier compensation proceeding. Alternatively, the Commission should rule that only express agreements are permitted in this environment or require that any "contract" must include express, written pricing terms otherwise the Commission will almost certainly be forced to determine the reasonableness of cellular carrier access rates and thus be forced to regulate those charges. Finally, I stated that, at a minimum, the Commission should conclude that the mere transmission of traffic cannot constitute an implied contract under any state or common law claim.

The positions expressed were consistent with those contained in the Comments and ex parte filings previously made in that proceeding. One copy of this Notice is being submitted for each of the referenced proceedings in accordance with the Commission's rules.

Very truly yours,

A handwritten signature in black ink that reads "Robert W. Zimmer". The signature is written in a cursive style with a large, looping initial "R" and a distinct "Z" at the end.

cc: Sam Feder
