

I support 5Mhz Amateur Band & Suggest following 60 meter bandplan:
5.250 to 5.300 CW/digital; 5.300 to 5.400 phone/cw/digital
Extra & Advanced Class full 5.250 to 5.400 Mhz
General 5.275 to 5.300 and 5.350 to 5.400 only; let us leave some
incentive for General Class operators to upgrade to Extra. Thanks.
