**Date:** Wednesday, July 17, 2002  
**To:** Samuel Feder  
**Cc:** John Stern  
**Subject:** Radar detectors

Sam,

I understand from John Stern that your office may propose additional language for the order, making it clear that the Commission remains open to examining in this proceeding the issue of interference to fixed satellite operations in bands other than 11.7-12.2 GHz. For what it's worth, at least one of the other offices would be agreeable to such language, and no one has said they would oppose it.

Joe
