Washington, D.C. 20554

Dear Chairman Powell:

We live in a area that is very fair from any big city, i think that if there where ever a national Emergace like 911 and it happen somewhere in the usa and i think that we should have the rights of all Americans for any info that or may could save our lives. Vecause if that did take place and we didn't have local channels how else will we get it there isn't cable co. newr here and they wont run there lines in here because there isn't enough people to get it or cost is to high so it would help us if that was passed it would make us that live in thess areas that would have the same thing that if we lived in the citys thanks again

Sincerely,

steve muncy
