Denotes voluntary rate reduction.

Additional reduction required to voluntarily reduce rates to reflect the fact that certain sold exchanges had not been removed from the FCC Synthesis Model results.

APPLICATION TO APPROVE EFFECTIVE DATE OF SGAT PRICE CHANGES

Qwest Corporation ("Qwest"), by and through its counsel, hereby files a revised Exhibit A to Qwest's North Dakota SGAT providing for lower rates for some Unbundled Network Elements ("UNEs") and Local Interconnection Services (LIS") elements.

On May 16, 2002, Qwest filed new, lower rates for certain Unbundled Network Elements and LIS elements that became effective on June 7, 2002 in accordance with the Commission motion of June 6, 2002. Although Qwest believed its prior rates complied with the Telecommunications Act of 1996 in general and TELRIC in particular, it filed the revised, lower rates to eliminate any question in connection with Qwest's FCC 271 application that its rates satisfied the relevant provisions of the competitive checklist.

Qwest filed its 271 application with the FCC on June 13, 2002 and the Department of Justice issued its recommendation for approval on July 23, 2002. As a result of comments filed by CLECs concerning the North Dakota prices in the application, in particular those made by AT&T and MCI WorldCom with respect to the

prior sale of exchanges in North Dakota, Qwest has developed still lower rates to accommodate the removal of the sale of exchanges in the FCC's synthesis model. In addition, Qwest has made a few clarifications in Exhibit A, relating to the application of the Quote Preparation Fee for caged and cageless collocation and the applicability of the Wholesale Discount Rate to the PAL product. Finally, in response to CLEC requests for a rate associated with collocation augments, Qwest is submitting a rate for this product. Qwest requests that the submitted rates and clarifications become effective on the same date as when the revised rates were made effective, June 7, 2002.

Qwest will incorporate these submitted rates and clarifications into its Interconnection Agreements. Where a rate in the revised Exhibit A is lower than the rate currently in a CLEC's Interconnection Agreement, the lower rate will be effective prospectively. Customer bills will also be credited back to June 7, 2002. The net effect of this action is to maintain or reduce wholesale rates in North Dakota. In no case will the action result in increased rates to Qwest CLEC customers. Qwest's CLEC customers are being notified of these changes. A copy of the notice is attached for the Commission's information.

Qwest intends that these new, lower rates would remain in effect for its CLEC customers until one of the following occurs: the Commission establishes a different rate in a cost docket; Qwest files with and receives the approval from the Commission of a mutually acceptable different rate; or a change in applicable law takes place triggering a rate change pursuant to any "change in law" provision of an applicable interconnection agreement.

Qwest requests that the Commission approve the effective date of these rates on a retroactive basis as of June 7, 2002.

Dated this ____ day of August, 2002.

Respectfully submitted,
