COMMENTS OF REC NETWORKS

REC Networks ("REC") is a supporter of locally owned and diverse radio. REC Networks represents the interests of independently owned Low Power FM ("LPFM") broadcast stations and their listeners. Since the above captioned proceedings will have an impact on the future of local radio in REC's area of interest¹, REC has reviewed the above captioned proceedings and has found that there would be no adverse effect to the growth of local radio services including LPFM stations and these allotments will not encroach on an urbanized area. REC is satisfied that Austin and Eureka are independent of other communities with existing allotments and therefore should be considered as new communities for allotment purposes². REC therefore urges the Commission to **GRANT** the above allotments in the above captioned proceedings.
