

Dear FCC Officials;

I am a shareholder of "Global Crossing" (GX). I have owned and operated my OWN BUSINESS for over 20 years, the Lyceum Health and Fitness Club, and pay my all my taxes, pay my employees well, and run a honest business.

I am greatly disturbed by the CURRENT CEO of GX, "Mr. John Legere" and his complete self centered and selfish attempt to sell the GLOBAL NETWORK to the CHINESE AND ITS COMMUNIST GOVERNMENT! Mr. Legere has LIED to employees and shareholders repeatedly over the past year. I bought stock in GX based on his "documented statements of the past and telling the public and its employees that GX would not go Bankrupt last year just 2 months before filing in the Jan. 2002. He has mislead investors, all the while he has received millions in pay, severance pay from the other company AX, 10 million in a loan forgiven by the creditors committee this year, and 7 million to pay HIS INCOME TAX by the loan committee this year. He is attempting to defraud current shareholders of any stake in the restructuring of the company. He has laid off employees and refused to pay severance pay while he makes sure he gets all of his. He has wiped out former employees and current employees pension plans.

John Legere (CEO) and Gary Winnick founder of GX are making sure they WILL GET a 8% stake in the NEW DEBT FREE GX soon to emerge under CHINESE CONTROL! They both should be "indicted for FRAUD and LIES to SHAREHOLDERS and EMPLOYEES! They should not be allowed to continue to abuse our SYSTEM with corrupt attorneys working with the BLACKSTONE GROUP, making sure they stay in control of the Bankrupt Company. There are alternatives to their CORRUPT PRECONCEIVED RESTRUCTURING PLANS that could include employees, their pension plan investments and current shareholders.

Please fight this SELLING OF GX TO THE CHINESE and their EXISTING COMMUNIST GOVERNMENT and get rid of these two characters at the top who have no moral conscious but only self serving goals.

Thank you, sincerely, Lloyd Little (609-494-6252) and thanks again for all your efforts in this Corporate Telecom Fraud.
