

Dear FCC Officials:

I am a former employee and shareholder of Global Crossing. I had worked for the company for 16 years. I was laid off from Global Crossing on 11-14-01. I was to receive 6 months worth of severance but due to the bankruptcy I did not. Not only did I lose my severance that was due to me but also money in my 401K account. It disturbs me greatly that John Legere is still the CEO of Global Crossing and that he is attempting to sell it to the Chinese and its Communist government. Mr Legere has LIED to me and all of the former employees and shareholders. Mr Legere made sure that he received his severance pay from the Asia Global Crossing. He also has had loans forgiven. Why have we not received the same treatment that he was given??

Please fight this selling Global Crossing to the Chinese and get rid of John Legere and Gary Winnick (founder of GX) who have no moral conscience but only self serving goals.
