

**WorldCom/Qwest EDI Question Log
(Last modified and sent to WorldCom on October 22, 2002)**

Notes:

The “last modified” date below does not indicate that further revisions have been made to the document. The most recent changes were made on October 22, 2002, and that version was provided to WorldCom on that date.

For the following exhibit, in the electronic version, there is colored text in the Resolution/Answer column of the Question Log, which is used to both highlight the latest set of answers provided to WorldCom and help differentiate between responses provided by Qwest and WorldCom on different dates. The yellow highlighting was added to the log by WorldCom. Qwest is unaware of its purpose.
