

I would prefer the FCC to go a step further and only allow telemarketers and charities to call numbers that have been listed voluntarily. I listen to radio stations I like and watch TV stations I like. I don't watch or listen to anything I don't want like. I wish my phone worked accordingly. I only call persons I want to call. I don't have to randomly talk to persons I don't want to speak with. But I am constantly receiving calls from people I don't know and don't want to speak with. Please make this stop. I get calls on behalf of the Fire Dept and the Police Dept all the time and fear that if I do not contribute they will add my name to a list of persons whom they will not service. This should be a simple fix.
