Relative to **IB DOCKET** No. **02-286**

To Whom **It** May Concern:

During January of this year Global Crossing announced that they **were** filing for Chapter 11 bankruptcy **protection**. This bankruptcy, following in the steps of **Enron**, caused severe hardship among **employee/shareholders**, as **it** appears that **our** 401K plan **containing** Global Crossing stock **s** now **virtually** worthless. During this **past** month **it** was **announced** that a re-structuring plan has been **approved** by the bankruptcy judge. **resulting** in Hutchison Whampoa (**Hong Kong & Singapore** companies) having controlling interest in this new **company**. **This** action is approved not only will **shareholders/employees** be affected by **the** actions of this company, but also the very security **of** this country. I am very concerned about the "National Security **Risk**" that this sale poses. **Approved** by **the** Federal Communications Commission, the Chinese, would now have controlling interest in the **largest** private optic **network** in the world. This would **result** in the **Chinese** controlling between 20% and 25% of the fiber optic capacity coming into and going **out** of the United States. This, I feel, has the potential for a **great** security risk, as undoubtedly, military operations will be among the governmental agencies that will be using this capacity. I am as a result, asking that the FCC **please** investigate the potential problems that will occur as a result of this sale. **If** these concerns are found to have merit I ask that you **deny** approval of the license transfers, ultimately stopping the sale of Global Crossing. **I would appreciate a** response to this **letter**.

Thank you,
