

Dear FCC Officials: I am a shareholder and former employer of "Global Crossing" (GX). I pay taxes and have always been an exemplary employee. I am greatly disturbed by the CURRENT CEO of GX, "Mr. John Legere" and his complete self-centered and selfish attempt to sell the GLOBAL NETWORK to the CHINESE and possibly it's COMMUNIST GOVERNMENT! Mr. Legere has lied to employees and shareholders repeatedly over the past year since the bankruptcy was filed. I purchased stock in GX based on his "documented statements of the past and telling the public and employees that GX would not go bankrupt last year just 2 months prior to filing in January 2002. He has mislead investors, all the while he has been receiving millions in pay, severance pay from the other company, AX, 10 million in loan forgiveness by the creditors committee this year, and 7 million to pay HIS INCOME TAX by the loan committee this year. He is attempting to defraud current shareholders of any stake in the restructuring of the company. He has laid off employees and refused to pay the promised severance pay while he makes sure he gets all of his. He has wiped out former employees and current employees pension plans. John Legere (CEO) and Gary Winnick founder of GX are making sure they WILL GET an 8% stake in the NEW DEBT FREE GX
