

I would hope when granting licenses that you look real hard at this global crossing, I believed what they said as far as were this company was going. I'm a disabled person who thought that some few good investments would help me out in the long run and believed what Winnick was saying. I have 10400 shares that I purchased, because of the way they pumped themselves up, and I believed this corp was doing every thing they said. Now they want to restructure with out shareholders.
