Relative to **IB DOCKET No. 02-286**

To Whom **It** May Concern:

During January of this year Global Crossing announced that they were filing for Chapter 11 bankruptcy protection. This bankruptcy, following in the steps of **Enron**, caused severe hardship among **employee/shareholders**, as it appears that **our 401K** plan **containing** Global Crossing stock is **now** virtually worthless. During this **past** month it was **announced** that a re-structuring plan has been approved by the bankruptcy judge, resulting in Hutchison **Whampoa (Hong Kong & Singapore companies)** having controlling interest in this new company. **This** action is approved not only will **shareholders/employees** be affected by the actions of this company, but also the very security of this country. **I** am very **concerned** about the "National Security Risk" that this sale **poses**. **If** approved by the Federal Communications Commission, the Chinese, would now have controlling interest in the largest private optic **network** in the world. This would result in the Chinese controlling between 20% and 25% of the fiber **optic** capacity coming into and going **out** of the United States. This, **I** feel, has the potential for a great security risk, as undoubtedly, military operations will be among the governmental agencies that will be using this capacity. **I** am **as** a result, asking that the FCC please investigate the potential problems that will occur as a result of this sale. **If** these concerns are found to have merit **I** ask that you deny **approval** of the license transfers, ultimately stopping the sale of Global Crossing. **I** would appreciate a response to this letter.

Thank you,
