

This is concerning the possible changes to the Telephone Privacy laws. I DO NOT want the laws changed from what they are here in Indiana. I once again have the freedom to have my phone turned on and feel free to answer MY PHONE when it rings. In the past, there were so many sales or survey calls that there was NO PEACE. It made no difference of what time of day or evening. They called. They were rude and often would call more than once in the same day. I have only had (ONE) sales call since I had our name placed on the "no call" list. I pay for this phone line and I want the freedom to use MY phone line as I desire. NOT to be badgered by people who can't even pronounce my name or worse yet, you can't get them to understand you are not interested without being rude. Please, I am asking you NOT TO CHANGE THE INDIANA LAW.
Thank you, Roger G. Bauer
