

Please do not enact any changes which would reduce the protection I have enjoyed with the Indiana Telephone Privacy law. My phone used to ring constantly with unsolicited telemarketing calls, but since I signed up for the Privacy act, I receive only a few local calls each week. I am disabled with a bad back and arthritis. It is difficult for me to reach the phone and this new Indiana law has been a godsend for me. Unwanted calls have gone from 6 to 8 per day down to 1 or 2 per month.
