

I implor you to leave Indiana's phone soliciting laws alone. My family has never had so much peace and quiet around our house since those

very annoying phone calls stopped. I believe I have as much right to stop those infernal people from calling, as they CLAIM they have the right to do. Freedom of speech. YES! I have the freedom to not listen!! I should have the right to tell, and enforce everyone to not call my house, even people or companies who claim I am an existing customer. If I want to talk to them, then I will call them!!
